

## LastPass + FIDO Alliance: Embracing the Passwordless Future

LastPass and FIDO Alliance gauged IT decision makers' attitudes and plans for removing passwords in favor of easier and more secure authentication.

### The results?

A growing movement toward password elimination that embraces a **passwordless future.**

**Businesses have placed passwordless authentication firmly on their present and future roadmaps.**

**92%** of businesses have or plan to move to passwordless technology.

**89%** of IT leaders expect passwords will represent less than a quarter of their organization's logins in 5 years or less.

**However, as with any emerging technology, education is key to success and widespread adoption.**

**55%**

of IT leaders feel they need more education on how the technology works and/or how to deploy it.

**Passkeys will be a significant part of the passwordless future – easily integrating with existing tech stacks.**

**92%** of IT leaders believe passkeys will benefit their overall security posture.

**69%** of IT leaders anticipate storing them in a third-party password manager.

Businesses are actively moving to eradicate passwords from employees' lives and embracing the **passwordless future.**
